

Client Testimonials

OADA Mobility
Innovations in Relocation

“I was introduced to Jim through the German-American Council Network, and we immediately hit it off. His extensive connections in the moving industry were invaluable in finding reliable partners for our cross-country move. Jim’s recommendations for real estate brokers, moving companies, and car transport services were top-notch, providing us with peace of mind throughout the entire process. He consistently checked in on us, offering guidance with patience, experience, and expertise. I highly recommend Jim and his team.”

— Marc Lingenhoff
Managing Director

“We met Jim at the STEP USA program organized by the German-American Chamber of Commerce New York, where we presented our company and our plan to extend into the American market. Part of the endeavour was the movement of our entire production facility within the year. Jim and I connected directly after our presentation, and he has supported us ever since along the way with his vast network and experience in relocating entire production facilities. For a young company from Germany, local help is essential!”
