

OADA Mobility Use Cases

Tracey L.

Relocating from London to New York, OADA Mobility arranged for her household goods to be picked up and shipped by its preferred UK forwarder. While her belongings were in transit, OADA's representative helped her navigate the difficult rental environment in Manhattan. After visiting several properties over two days, Tracey followed OADA's guidance to overcome her lack of US credit and secure a unit that met her needs before her shipment cleared Customs.

Mark L.

As the US Managing Director of a German company, Mark was based in Portland, Oregon at the time of his recruitment. OADA Mobility procured top-tier real estate brokers to handle the sale of his home in Portland and secure a new residence in New Jersey. When his home sold in under a week, OADA referred Mark to a moving company specializing in executive relocations, ensuring a smooth transition for his family and his new role.

Andreas M.

As head of a German technology company with a manufacturing facility in Minnesota, Andreas faced challenges relocating when demand exceeded capacity. After meeting Jim Weiss of OADA Mobility at a German American Chamber of Commerce function, OADA leveraged its nationwide provider network to move the company's production equipment efficiently and without complications.
